REMS Tiger SR

The REMS Tiger SR is a powerful, lightweight electric reciprocating pipe saw designed for fast, right-angle cutting of steel pipes and other materials. With its force-transmitting guide support, it can be used on site without a vice and is also suitable for freehand sawing, making it ideal for assembly, dismantling and repair work.

SPECIFICATIONS

- Motor Power: 1,400 W
- Voltage: 230 V or 110 V
- Frequency: 50–60 Hz
- Speed Range: 700–2,200 rpm
- Weight: 3.1 kg
- Sawing Capacity: Up to 6" pipe with guide support
- Speed Control: Stepless electronic speed control
- Blade Clamp: Universal saw blade clamp
- Guide Support: 2"
- Drive: Maintenance-free, water and dust-resistant oscillating drive
- Protection: Temperature control and stall protection

FEATURES

- Powerful 1,400 W Motor: Provides strong cutting performance for demanding applications
- Electronic Speed Control: Adjustable from 700–2,200 rpm to suit different materials
- Right-Angle Cutting: Guide support and special saw blades allow accurate right-angle cuts
- Power-Transmitting Guide Support: Provides increased sawing power for effortless pipe cutting
- Aggressive Orbital Action: Helps provide fast cutting and efficient chip removal
- Universal Saw Blade Clamp: Allows different REMS saw blades to be fitted without changing the clamp
- Maintenance-Free Drive: Water and dust-resistant oscillating drive with needle-bearing crank drive
- Overheating Protection: Temperature monitoring helps protect the motor during demanding use
- Stall Protection: Helps protect the gearbox and motor if the blade becomes blocked
- Freehand Sawing: Can also be used without the guide support for versatile cutting applications
