3.5 CFM Compressor

The Clarke Pioneer 220 is an air compressor designed to supply compressed air to compatible air tools and equipment. It features an adjustable pressure regulator and automatically maintains reservoir pressure, making it suitable for a range of compressed-air applications.

SPECIFICATIONS

- Weight: 22 kg
- Dimensions (L × W × H): 395 × 320 × 630 mm
- Max Operating Pressure: 8 bar / 116 psi
- Displacement: 185 L/min (6.5 cfm)
- Receiver Capacity: 10 litres
- Duty Cycle: S3 – 20% (3 mins in 10)
- Fuse Rating: 13 amps
- Power Supply: 110 V
- Sound Pressure Level: 79 dB LpA
- Guaranteed Sound Power Level: 94 dB LwA

FEATURES

- Automatic pressure cut-in and cut-out
- Adjustable pressure regulator
- Pressure gauges for monitoring pressure
- Factory-set safety valve
- Overload cut-out to protect the motor
- Quick-release air hose connection
- Combined ON/OFF pressure switch
- Portable design with handle
- Oil-lubricated compressor
