Expanding Safety Barrier 2.7mtr

Efficiently manage pedestrian and vehicle traffic with our best-selling small expanding safety barrier

Barrier is 910mm high and will expand to 2700mm in width, contracts to 240mm when stored away

Weighs only 11kg but always remains rock-solid, performing faithfully even in windy conditions

Fabricated from robust steel, tough enough for commercial use

Finished with high quality yellow and black epoxy paint that defends against dings and bumps

Hugely mobile safety barriers are a breeze to move around when they're needed

Can be used indoors or outdoors and folds compactly for long term storage

Fitted with male and female attachments to link multiple barriers to create longer runs

The total product dimensions are 910(H) x 240-2700(W)

Colour: Yellow/Black

Features: Closes to 240mm wide

Height: 910mm

Maximum Width: 2700mm

Material: Steel

Weight: 11kg
