Cembre B-TC500

The B-TC500 cordless hydraulic cable cutter is designed for cutting copper, aluminium and telephone cables up to 50 mm in diameter. Its openable head and 90° rotation allow for quick, flexible cutting, while the ergonomic pistol-grip design and LED lighting make it comfortable and easy to use. A pressure relief valve provides added safety, with rechargeable battery operation and SMARTOOL technology for digital data management.

SPECIFICATIONS

- Operating temperature: -15 to 50°C
- Cutting diameter range: 50 mm
- Supply voltage: 18 V
- Pressure control system: Max pressure valve
- Mains power connection: Type C (EU)
- Depressurising: Manual
- Head shape: Openable guillotine
- Power supply: Electrical motor (battery)
- Net weight in operation: 5.9 kg
- Dimensions: 407 × 350 × 83 mm

FEATURES

- Cordless hydraulic cutting tool
- Cuts copper, aluminium and telephone cables up to 50 mm
- High-strength stainless steel blades
- Openable head for quick through-cable cutting
- 90° rotating head for flexible positioning
- Pressure relief valve for added safety
- Compact and ergonomic pistol-grip design
- LED lights for improved visibility
- Automatic rechargeable battery coupling system
- SMARTOOL technology for digital data recording and management
