PipeCut 220 Pro Series

The PipeCut 220 Pro Series – built on the Classic 220E with advanced features and maximum strength.

- User-friendly, extremely easy, safe, and convenient to use.
- Efficient, extremely fast cuts.
- Improved precision with traffic light system.
- Laser indicator for cutting point accuracy.
- Blade depth adjustment mechanism.
- Can be converted into a Cut&Bevel machine with the Cut&Bevel package for 220 Pro Series (sold separately).
- Designed in Finland, made in the EU

Technical Specifications

110 V

Product number	7020220
Pipe material	Steel, Stainless/Inox, Cast iron, Glass fiber, Aluminium, Copper, Plastics.
Pipe OD	20 mm–220 mm
Max. wall thickness	16 mm (steel), 35 mm (plastic)
Power	1600 W
No-Load speed	I (low) = 1900 /min, II (high) = 2885 /min
Blade diameter	140 mm, 165 mm, 180 mm
Mounting bore	62mm
Weight	11,5 kg
Electronical unit	Blade speed preselection, automatic fuse, soft start, torque control
Loading capacity of supports	314 kg (4 supports)
