PipeCut 360 Pro Series

The best-selling pipe saw in the Pro Series line-up.

- User-friendly, extremely easy, safe, and convenient to use.
- Efficient, extremely fast cuts.
- Improved precision with traffic light system.
- Laser indicator for cutting point accuracy.
- Blade depth adjustment mechanism.
- Cuts steel pipes with wall thicknesses up to 20 mm.
- Can be converted into a Cut&Bevel machine with the Cut&Bevel package for Pro Series (sold separately).
- Designed in Finland, made in the EU.

Technical Specifications

110 V

Product number	7020360
Product number (for US)	7010413US
Pipe material	Steel, Stainless/Inox, Cast iron, Glass fiber, Aluminium, Copper, Plastics.
Pipe OD	75-360 mm
Max. wall thickness	16 mm (steel), 50 mm (plastics)
Power	1600 W
No-load speed	I (low) = 1900 /min, II (high) 2900 /min
Blade diameter	140 mm, 165 mm, 180 mm, 190 mm
Mounting bore	62 mm
Weight	17.7 kg
Electronical unit	Blade speed preselection, overload protection, soft start, torque control
Loading capacity of supports	465 kg (3 supports)

220 V

Product number	7020360
Pipe material	Steel, Stainless/Inox, Cast iron, Glass fiber, Aluminium, Copper, Plastics.
Pipe OD	75-360 mm
Max. wall thickness	20 mm (steel), 50 mm (plastics)

Power	2500 W
No-load speed	I (low) = 1900 /min, II (high) 2900 /min
Blade diameter	140 mm, 165 mm, 180 mm, 190 mm
Mounting bore	62 mm
Weight	17.7 kg
Electronical unit	Blade speed preselection, overload protection, soft start, torque control
Loading capacity of supports	465 kg (3 supports)
