Counter Balance Floor Crane 300-500KG

The CTC-508 508kg Counterbalance Floor Crane is a compact hydraulic crane designed for lifting loads in restricted-access areas, particularly in machine shops and manufacturing environments. Its counterbalanced design has no protruding front legs, making it ideal for lifting loads directly from the floor, with a three-position jib offering lifting capacities from 254kg to 508kg.

SPECIFICATIONS

- Lifting Capacity – Position 1: 508 kg
- Lifting Capacity – Position 2: 381 kg
- Lifting Capacity – Position 3: 254 kg
- Crane Weight (Without Counterweight): 215 kg
- Required Counterbalance Weight: 320 kg
- Testing: Individually tested to 125% of maximum capacity
- Certification: Fully certified

FEATURES

- Hollow steel box-section construction for strength and reduced weight
- Robust, heavy-duty design
- Double-acting pump for fast operation
- Overload safety valve for added protection
- Chrome-plated piston on both ram and pump
- Three-position extending jib
- Heavy-duty swivel hook with safety latch
- Hard-wearing nylon front wheels and rear castor wheels for easy movement when operational or folded
