FuelBox HVO Bio Fuel

HVO White Diesel Replacement Fuel is a renewable, FAME-free alternative to conventional diesel, made from waste fats and vegetable oils. Designed as a direct drop-in replacement, it requires no engine modifications and offers excellent cold-weather performance. With significantly lower greenhouse gas emissions, reduced air pollutants and a longer shelf life, it provides a more environmentally friendly fuel solution.

SPECIFICATIONS

- Capacity: 24 litres
- Weight per box: 17.1kg
- Box dimensions (W × D × H): 26 × 30 × 33cm
- Full pallet dimensions (W × D × H): 80 × 127 × 148cm
