REMS E PUSH 2

The REMS E-Push 2 is an electric water test pump for pressure and leak testing pipework and systems up to 60 bar. Its 1,300 W motor and adjustable pressure settings make it suitable for a range of installations.

SPECIFICATIONS

- Maximum Pressure: 60 bar
- Maximum Flow Rate: 6.5 L/min
- Power Input: 1,300 W
- Voltage: 230 V / 110 V
- Maximum Liquid Temperature: 60°C
- Protection Rating: IP25
- Dimensions: 395 × 270 × 295 mm
- Weight: 10 kg
- Operating Mode: Continuous operation

FEATURES

- Electric 1300 W motor for fast, powerful pumping
- Pressure testing up to 60 bar
- 6-stage adjustable pressure limiting from 10–60 bar
- Self-priming with a pumping capacity of 6.5 L/min
- Suitable for water pressure and tightness testing
- Designed for sanitary, heating, solar, sprinkler, cooling and other pipe systems
- Compact and lightweight at 10 kg, making it easy to transport
- Includes a pressure gauge and high-pressure hose designed to minimise measurement errors
