R250 7.6M Max Lift

The Sumner Roust-A-Bout R250 is a lifting system designed for safely moving and positioning heavy loads in tight or hard-to-reach locations. With a 7.6 m maximum lift and 680 kg lifting capacity, it can move loads both vertically and horizontally. Its two-speed winch, infinite load adjustment and quick-release mast and base make it practical for use on site or in the workshop.

SPECIFICATIONS

- Lifting Capacity: 1,500 lbs (680 kg)
- Lift Height: 25 ft (7.6 m)
