RIDGID 550 Pipe Saw

The RIDGID 550 Pipe Saw is a powerful and versatile saw designed for cutting steel pipe, sheet steel and wood. Its orbital and reciprocating action allows for fast, efficient cutting, while the electronic power control helps maintain consistent performance. It's particularly useful for pipework, maintenance and on-site cutting applications.

SPECIFICATIONS

- Motor Power: 1,200 W
- Table Speed: 800–2,400 SPM
- Weight: 3.2 kg
- Steel Pipe Capacity: 100 mm (4″)
- Sheet Steel Capacity: 6 mm (¼″) maximum wall thickness
- Wood Cutting Capacity: 120 × 112 mm
- Compatible Machines: RIDGID 550

FEATURES

- Orbital and reciprocating action
- Electronic power control
- Electronic overload protection
- Compatible with Bi-Metal Double Shank Reciprocating Sawing Blades
