Hydraulic Squeeze Off Tool

The Squeeze Tool is designed to limit flow in 63–180mm PE pipe, using a hydraulic jack to apply controlled squeeze pressure. Rotating limit stop plates help prevent over-compression, while check screws lock the tool in position to prevent accidental loss of squeeze pressure.

SPECIFICATIONS

- Pipe Size: 63–180 mm
- SDR: 11 & 17
- Material: Mild Steel EN3A
- Finish: Chrome Plated Tube / Powder Coating / Zinc Plated Steel
- Dimensions (H × W × D): 750 × 370 × 100 mm
- Hydraulic Jack: Webber 15 Ton
- Jack Stroke: 200 mm
- Oil Volume: 410 cm^3
- Oil Type: Mineral
- Weight: 37 kg

FEATURES

- Hydraulic Pipe Squeeze-Off
- Suitable for 63–180mm PE Pipe
- SDR11 & SDR17 Compatible
- 15-Ton Hydraulic Jack
- Rotating Limit Stop Plates
- Prevents Over-Compression
- Safety Check Screws
- Hydraulic Safety Valve
- Return Spring System
