HILTI TE6A

The Hilti TE 6-A36 is a cordless rotary hammer designed for hammer drilling in concrete and masonry, as well as drilling in wood and steel and driving or removing screws. Its versatile functions and cordless design make it suitable for a range of professional construction, renovation and installation tasks.

SPECIFICATIONS

- Rated voltage: 36V DC
- Weight: 4.0kg
- Dimensions: 344 × 94 × 215mm
- Drilling speed without hammering: 1,010/min
- Hammer drilling speed: 940/min
- No-load speed in hammer drilling mode: 1,040/min
- Single impact energy: 2.0J
- Chuck: TE-C Click
- Sound power level: 99dB(A)
- Sound pressure level: 88dB(A)
- Sound level uncertainty: 3dB(A)
- Vibration – hammer drilling in concrete: 9m/s^2
- Vibration – drilling in metal: <2.5m/s^2
- Vibration uncertainty: 1.5m/s^2

FEATURES

- TE-C Click chuck for quick and easy accessory changes
- Speed control for smooth starting
- Function selector for versatile operation
- Forward/reverse switch for drilling and screwdriving
- Vibration-absorbing pivotable side handle with depth gauge
- Vibration-absorbing main grip for improved comfort
- Mechanical slip clutch for added protection
- Electronic overload protection
- Electronic temperature monitoring to help protect the motor
- Permanent grease lubrication for low maintenance
- Suitable for hammer drilling, drilling and screwdriving
