RIDGID 1450 Test Pump

The 1450 Pressure Test Pump tests hydraulically for leaks in installations which are required to be leak proof and will test systems up to 725 PSI. Especially for use in heating, compressed air, refrigeration systems, oil installations, sprinkler systems and other small bore pipe installations.

SPECIFICATIONS

- Model: RIDGID No. 1450
- Dimensions: 71 × 22 × 24 cm
- Weight: 6.4 kg
- Maximum pressure: 50 bar / 750 psi
- Volume per stroke: 38 cm^3
- Outlet hose: 1/2" BSPP or 1/2" NPT
- Reservoir capacity: 13.6 litres
- Compatible liquids: Water, oil, ethylene glycol
- Maximum temperature: 50°C
- System: Variable lever-arm design with automatic non-return valve

FEATURES

- Low-effort operation
- Automatic pressure maintenance
- Inlet and outlet filters for improved reliability
- Two-stage lever action for fast filling and pressurisation
- Aluminium and carbon-enhanced PTFE piston pump for extended service life
