HILTI TE4A Rotary Hammer Drill

The Hilti TE 4-A22 is a cordless rotary hammer drill designed for drilling in concrete, masonry, steel and wood, as well as driving and removing screws. Its compact cordless design and versatile drilling functions make it useful for a range of professional construction, renovation and installation tasks.

SPECIFICATIONS

- Rated voltage: 21.6 V
- Weight: 3.3 kg
- Dimensions (L x W x H): 324 x 94 x 201 mm
- Drilling speed without hammering: 1,050/min
- Hammer drilling speed: 945/min
- No-load speed in hammer drill mode: 1,090/min
- Single impact energy: 2.0 J
- Sound power level: 99 dB(A)
- Sound pressure level: 88 dB(A)
- Sound level uncertainty: 3 dB(A)
- Vibration – hammer drilling in concrete: 11 m/s^2
- Vibration – drilling in metal: 5.5 m/s^2
- Vibration uncertainty (K): 1.5 m/s^2

FEATURES

- TE-C Click chuck for quick and easy accessory changes
- Speed control for smooth starting
- Forward and reverse function
- Function selector for versatile operation
- Pivotable side handle with depth gauge
- Mechanical slip clutch for added protection
- Electronic overload protection
- Electronic temperature monitoring to help extend tool life
- Permanent grease lubrication
