Viega Pressgun 5

The Viega Pressgun 5 is a compact press tool designed for quickly and safely joining pipework using Viega press systems. Its lightweight design and 180° rotating press head make it easier to use in tight or hard-to-reach areas, while the battery or mains operation provides flexibility on site. With a pressing range of 12–108 mm, it is suitable for a wide range of installation work.

SPECIFICATIONS

- Weight: 3.2 kg
- Pressing Force: 32 kN
- Pressing Range: 12–108 mm
- Battery: 18V / 2.0 Ah Lithium-ion
- Power Supply: Battery or mains
- Press Head: 180° rotating
- Service Interval: 40,000 pressings or 4 years
- Automatic Shut-Off: 42,000 pressings

FEATURES

- Compact and lightweight design
- Suitable for press connections from 12–108 mm
- Battery or mains operation for flexible use
- 180° rotating press head for working in restricted spaces
- Compatible with virtually all Viega press jaws and hinged press jaws
- Ergonomic gun-shaped design
- Soft-touch handle for comfortable handling
- Integrated LED light for improved visibility in poorly lit areas
- 18V / 2.0 Ah Lithium-ion battery
- Improved cold-start performance
- Integrated battery monitoring electronics to protect against deep discharge
- Long servicing intervals of up to 40,000 pressings
- LED service indicator
- Automatically switches off at 42,000 pressings
